In the last Staff Survey, 500 members of staff said that they had suffered from harassment and bullying in the last two years, but only 200 reported it and only 35 were satisfied with the outcome.

If you are concerned about harassment and bullying, then the Forestry Commission Trade Unions have a network of specially trained reps who are here to provide you with advice and assistance.

For further information call 0131 314 6195
